
RAISES THE PAY OF PRINCIPALS

Board of Education Grants a First Figures of State Board General Advance.

MORE TEACHERS ARE HIRED THIS IS TO BE MADE UP LATER

VARIOUS MATTERS

The committee on teachers and school work of the board of education met at the office of Oscar Moyle, president of the board, yesterday afternoon and arranged a new salary schedule for principals. The pay of all is increased in proportion to the number of teachers a principal has under him. As an incentive to study and advancement, those principals who hold state High school diplomas or their equivalent will be paid better wages than those without The following is the result. without. The following is the resolu-tion that the committee will recom-

mend to the board for adoption:
"The salaries of High school principals shall not be governed by a sched-ule, but shall be determined on individual merit, but the minimum salary paid a high school principal shall not be less than the maximum salary paid a grammar school principal. A high school principal shall, however, be the holder of a state high school diploma or its equivalent. Each principal of a grammar school shall receive a salary of \$80, with \$4.25 additional for each eacher under his direct supervision provided, that \$160 shall be the maximum monthly salary paid any grammar school principal, unless he be the nolder of a state high school diploma or its equivalent, in which case \$165 receive more than \$150 unless he has supervised for three or more years in this city a corps of sixteen or more teachers. A principal of a primary school shall receive a monthly salary of \$80, with \$4.25 additional for each teacher under his supervision, provided the maximum salary paid any pri-mary school principal shall be \$105; provided, also, that \$100 shall be the maximum paid any primary principal not the holder of a state high school

Increases Shown by Table. The following is a table showing

comparative salaries under the old and new plan:

	Salary.	Salary
Bonneville	\$ 92	\$ 92 7

FALLING OFF IN

Show Deficit.

COMMITTEE TAKES ACTION ON REVISION IS EXPECTED TO SHOW INCREASE OVER 1903.

> The assessment compilations prepared y the state board of equalization and published yesterday morning will be revised before being officially promulgated, which will be done some time in December. They are to be regarded more in the nature of approximations than accurate figures, for accuracy cannot be obtained until all of the boards of county commissioners sitting as boards of equalization have made up their final returns. When they have completed their labors and the tabulations are completed it is probable that the present grand total of \$132,375,540 will be increased by the addition of several millions of property values that do not now appear, because the assessment work has not been finished. A ruling of the supreme court has deprived the state board of the power to assess railway, telegraph and other corporate property not lying in two or more counties, and what the board has lost in the way of assessments upon such properties lying only in vised before being officially promulgated, lying in two or more counties, and what the board has lost in the way of assessments upon such properties lying only in one county a number of county assessors and boards of equalization have gained.
>
> The grand total of last year's assessments was \$137.649.452, as against \$132.575.540 shown by the incomplete returns of this year's assessments, a deficit of \$5,073.912. The members or the board say this will be more than made up when the returns are finally tabulated. The total of last year's realty assessments was \$48.021.349 and are exceeded by the total of this year's assessments \$725.639. The final complete returns will show a much larger increase. The total of assessments on improvements on real estate for 1903 was \$25,400.832, less by \$1.758.699 than the total for 1904. The personal property assessment for 1903 aggregated \$29,391.082, and was \$5.863,198 in excess of the same assessment shown by the incomplete returns for 1904. Live stock assessments for 1904 show a deficit of \$1,020.852 the total for 1903 being \$9,141,147. There is a falling off of \$392,558 in the net proceeds of mines, the total for 1903 being \$4,840,183, but the returns from railways, telegraph, telephone and car companies show an excess of \$9. and car companies show an excess of \$9. 137, being \$21,204,879 for 1968 as against \$21, 214,016 for 1904.

PIERPONT SCHOOL OPENING. Miss Pierce and Miss Davis will meet
